Important Answers to Your Safe Deposit Questions

Q: What is a Safe Deposit Box?

A: *It is a sturdy container that can be rented for storing valuables. These boxes are kept in small compartments – each having a separate lock. To meet the needs of individual renters, Safe Deposit Boxes are available in a variety of sizes.*

Q: Why use a Safe Deposit Box?

A: *Safe Deposit Boxes are ideal for storing your valuables. Take an inventory of your items and ask yourself these questions:*

- Are these items important to me?
- Would they be difficult or impossible to replace?
- Are they presently in danger of fire or theft?
- Are they liable to be lost or misplaced?

If you answered “yes” to any of these questions, a Safe Deposit Box may be what you need. We are responsible for providing reasonable protection for your Safe Deposit Box and its contents. We will not be liable for loss by fire, theft or any other cause unless we have failed to exercise reasonable care.

Q: Who may rent a Safe Deposit Box?

A: *Safe Deposit Boxes are available to individuals, joint persons, businesses, associations, churches, clubs and miscellaneous organizations who are customers of Boiling Springs Savings Bank.*

Q: Is there a key for each box?

A: *When you rent a Safe Deposit Box, you are issued two keys, which fit only your lock. Each key should be secured in a safe, but separate, location. We do not keep a copy of the key. If you lose the keys, the lock will have to be drilled and a new lock installed. Lost keys create expenses for you and for us. Therefore it is critical for you to know the whereabouts of your keys at all times.*

Q: What are the procedures for entering my Safe Deposit Box?

A: *Each time you wish to access your box you must sign an access slip. The signature on this slip is verified against the signature on our records for identification purposes. You are then accompanied to the vault by an attendant. After you remove your box, be sure to keep it with you at all times until it is returned to the vault. Only open your box in a designated safe deposit booth.*

Your valuables and important papers can be safe and secure from fire, theft and prying eyes. Why risk fire and theft of your valuables when it is so easy to assure their safety and your peace of mind? The cost is insignificant when compared with the cost of replacing your possessions... some of which are irreplaceable.
